

» Z.ONE - COLORS AND FONTS

You can change **Theme Colors** and **Fonts** with this module.

🔗 We have a **Live Preview** tool for GENERAL colors on the front-end, you can use it to test the result.

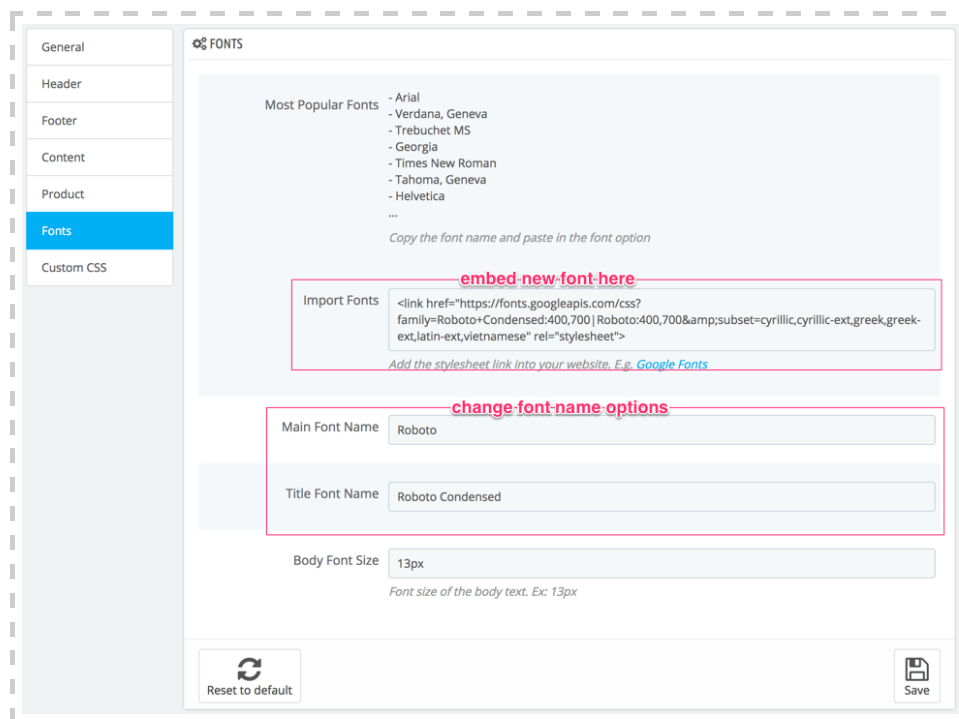

🔗 Fonts

Default main font is **Roboto**, and title font is **Roboto Condensed**

You can embed a new font to your site, then change the font name options

E.g. Google Fonts (<https://fonts.google.com/>)

🔗 Custom CSS

If you have knowledge of CSS, you can add a special stylesheet for your site.
